

AWT

```
import java.awt.*;

public class AwtProgram1 {
    public AwtProgram1() {
        Frame f = new Frame();
        Button btn = new Button("Hello World");
        btn.setBounds(80, 80, 100, 50);
        f.add(btn);
        f.setSize(300, 250);
        f.setTitle("JavaTPoint");
        f.setLayout(null);
        f.setVisible(true);
    }

    public static void main(String[] args) {
        AwtProgram1 awt = new AwtProgram1();
    }
}
```

Output:

The image shows a Windows command prompt window with the title bar "C:\Windows\System32\cmd.e". The prompt displays the following text:

```
Microsoft Windows [Version 10.0.22621.2428]  
(c) Microsoft Corporation. All rights reserved.  
  
C:\Users\gauta\OneDrive\Desktop\Temp\Ai-04\Temp>javac AwtProgram1.java  
  
C:\Users\gauta\OneDrive\Desktop\Temp\Ai-04\Temp>java AwtProgram1  
|
```

Below the command prompt, a Java application window titled "JavaTPoint" is visible. The window contains a small rectangular box with the text "Hello World" inside it.
